CROOK COUNTY FAIR PARADE MARSHALS

Jerry and Judy Ista

Jerry and Judy Ista have been married 58 years and have lived on their ranch in the beautiful Wyoming Black Hills near Hulett for 55 years. Before they began their ranch life, they taught in Buffalo, WY where Jerry also started the wrestling program. The couple has always been very involved in many community, church and 4H activities.

While growing up, Jerry and Judy were both very active in FFA and 4H so it was only natural that their family would participate in those activities, as well. They have three children, Sheila, Paula and Alan.

Sheila and Bob Berndt live in White, SD. Sheila teaches and Bob farms and ranches. Paula and Bryce Heinje live in Wilmot, SD. Paula is a veterinarian and Bryce farms and ranches. Alan and Hannah Ista live near Hulett, WY where they farm and ranch as well. Because of Jerry and Judy's background in ranching, FFA and 4H, all their children are involved in agriculture. Jerry and Judy are especially proud of their seven grandchildren and one great grandson. Traveling to watch their grandkids participate in numerous sports, FFA and 4H activities is very special to them.

Throughout the years, Jerry and Judy have been avid supporters of the Crook County Fair. Judy devoted many hours to the awards committee while Jerry served as the swine superintendent and a member of the livestock sale committee. Both are very proud of the years they spent helping in these areas and continue to enjoy supporting Crook County youth.

Jerry and Judy are very honored to be given the opportunity to represent Crook County as the Grand Marshals at the 2023 County Fair. Having been able to live, work and play in this wonderful part of the country is truly a blessing.

History of the Sheep Futurity

The Crook County Fair Sheep Futurity was established in the 1980's by area sheep rancher, Annie Fish. It was designed to promote and encourage sheep production in Crook County. The futurity is a 3-year long contest intended to showcase a producer's sheep program by allowing them to show a ewe lamb the first year, bring her back as a yearling ewe the next year, and finally show her the third year with her lamb/lambs at her side. The futurity is a perpetual contest since the 3-year cycle begins every year.

The futurity was renamed in her honor as the "Annie Fish Memorial Sheep Futurity" upon her passing in 2002.

lid and band) must be used on all jars.

- Jars must be exhibited with the canning rings on.
- All jars, lids and screw bands must be clean and free of any residue or rust. Any jars showing leaks and/or spoilage will not be judged and will be disqualified.

1. All amateur gardeners are encouraged to enter exhibits in all classes.
2. Exhibitors may have more than one entry in any one class as long as each entry is distinctly different (i.e. double mum, pompom mum, single mum, etc.)
3. The Superintendent shall have the right to refuse entry of plants or cut flowers which have been grown in a professional or commercial greenhouse, or when determined it has not been cared for by the exhibitor for at least 90 days prior to Fair exhibit. Potted plants are alive, and constantly changing, therefore potted plants are not barred from re-entry if they have been previously exhibited at the Crook County Fair.
4. The Fair officials will not be responsible for loss, breakage, or damage to any containers or accessories.
5. Select flowers that are coming into full bloom NOT flowers that are already in full bloom. If a flower is to remain fresh throughout the exhibit period, it must be cut no later than the day before it is to be exhibited. It is generally recognized that afternoon, especially cutting in late

afternoon, when the greatest amount of sugar has ascended into the leaves and blooms - as well as a "hardening off" process will help insure a winning entry. Flower stems should be cut cleanly at an angle with a sharp knife or pruning shears and plunged into deep, hot water: 110 degrees Fahrenheit is ideal. It is a good practice to carry a bucket of water to the garden and place each cut specimen in the water at once. Following cutting and hot water treatment, specimens should be placed in a cool, darkened room. After several hours, when the water has come to room temperature, add ice to the water and leave the flower material undisturbed overnight. Flowers prepared in this way improve their substance and will hold their freshness longer.

6. The decision of the Superintendents and Judges is final.

DIVISION 1 -- FLOWERS AND PLANTS

1. Specimens should have exact number of blooms called for with some of its own foliage attached, be well groomed **and correctly labeled**.

2. All entries must be grown by the exhibitor or owned for at least 3 months prior to the show.

3. The superintendents may add additional classes if number of exhibits warrant.

4. All cut flower entries will be placed in a clean, unmarked, clear glass container, with no leaves down in the water, if possible.

VEGETABLES

The following information will aid exhibitors in preparing the exhibits.

ASPARAGUS—Should be fresh, tender and firm, with close compact tips. The stalks should be green for almost its entire length, taper uniformity, the same at the butt, and be the same length.

BEANS—Green and wax beans should be clean, firm, crisp and free from blemishes. Long straight pods of the same length and color should be selected. The ends of the pods should not be broken off and their seed should be about one-half grown.

BEETS—Diameter should be 2 to 2 ½ inches. Side rootlets should be removed, but tap root should not be removed. All specimens should be uniform in color, shape and size. Tops trimmed, leaving 1 inch of leaf stalk above crown.

BROCCOLI—Each head should be 3 inches in diameter. Stems should be 5 to 6 inches long. Heads should be compact, dark, or purplish green in color, depending on variety. Avoid any yellowing or flowering in heads. This indicates over maturity and lack of quality. Entry must be free from insects, worms, and damage caused by wilting or injury.

CABBAGE—Type is very important. Leaves should not be peeled too closely. The heads should be firm, heavy in proportion to size, not withered or soft, free from damage, freezing or disease injury, and the midribs should not be large as that would indicate coarseness. Stems should be cut off.

CARROTS—Select carrots that are smooth, straight, firm, deep orange in color, and free from greening at top. Specimens should be typical of their variety. Avoid oversize. Should be free from side roots, cracks, and other damage. Cut off tops one inch.

CAULIFLOWER—Heads should be pure,

white, solid, uniform and close flowered. Should not have leaves appearing through the head. Trim the green outer leaves to one inch above the head. Trim the butt or stem to allow 4 to 6 leaves to remain.

CELERY—Should be exhibited with root removed and the outside leaves removed until the inside is uniform in color. Avoid split, pithy, woody and stringy stalks. Avoid disease infested leaves. Celery should be washed carefully and all dirt removed. Avoid cutting the roots too closely.

CUCUMBERS FOR PICKLES—Avoid oversize and extremes of immaturity and over ripeness. Immature specimens are too spiny. Overripe ones may turn white or yellow. Cucumbers should run 2 to 4 inches in size and should not be washed. Type and color are very important. Do not mix types.

CUCUMBERS FOR SLICING—Straight, firm, crisp, and fresh. Color should be green and white, not yellow. Avoid mature seed. A small seed cavity is desirable. Cucumbers may be washed.

EGG PLANT—Specimens should be smooth, firm, heavy, but not too large, uniform in shape and size, and free from blemishes, are desired. Select for uniform purple coloring free from bronzing and greening. Wipe off with soft cloth, but do not wash. Trim stems to one inch.

KALE—A large, hardy, curly-leafed green. Dark green in color. Leaves should be crisp, clean and free from bruising or crushing.

KOHLRABI—Specimens should not be hard, woody or pithy. They should be 3 to 4 inches in diameter and very smooth. Skin should be easily punctured by thumbnail. Clean, but do not wash. Remove all leaves by trimming the stems to one inch long. Cut off the stem portion just below the ball.

MUSKMELONS AND CANTALOUPE—Must be fully ripe when exhibited and free from soft spots or discoloration. Pick on "full slip". If several days elapse between picking date and exhibit, may be picked on "half slip" and permitted to ripen, stems attached.

ONIONS—All Same variety, uniform in color, shape, and size. Should be clean and free from damage of any kind. Avoid large sizes, but should not be less than two inches in

diameter. The bulbs should have most of their thin papery skin in tact. Do not peel so as to give a slick appearance. The tops (necks) should be small and trimmed to one inch.

PARSLEY—Entries must be fresh, bright green and free of dirt. There should be no yellow or discolored leaves. Bunch ½" at butt makes an exhibit. Minimum stem length 4". Overall length 8-10".

PARSNIPS—Roots firm, smooth, tapering evenly, small in diameter (1 ½ to 2 ¼ inches) without side roots. Should be light creamy in color, with taproot left on. Trim taproot to one inch.

PEAS—Must be green, fresh and well filled pods. Avoid large empty pods, hard berries and discoloration.

PEPPERS—True to variety, deep in color, fresh, firm and symmetrical. Sweet peppers should show no red color. Pimentos should be red. All peppers should be free from sun scald and injury caused by insects and diseases.

PUMPKINS FOR PIE—Specimens should be uniform in color, bright and clean, fresh and fine grained. Free from damage caused by freezing, pithiness, growth cracks, insects, disease or mechanical injury.

POTATOES—Four (4) potatoes constitute a sample. Potatoes for exhibit should not be washed.

RADISHES—Crisp and tender, medium to large, uniform shape and color. Free from injury caused by disease, insects, growth cracks; or damage while digging or handling. Clean and wash. Exhibit with foliage; avoid pithy specimens.

RHUBARB—Entries should be fresh, firm. Stalks should be fairly thick but not coarse. Leave small portion of leaf (1/2 - 1") to prevent bleeding. Stalks should be pulled, not cut, from crown. Sheath may be removed.

SQUASH [Summer]—Stems must be left on. Pick when small, before maturity when the shell is extremely soft. Uniform in size, shape, and color. Be sure samples are free from damage or blemishes. May be washed.

SQUASH [Winter]—Select mature specimens with shells hardened. Do not wash. Leave stem attached. Uniform size, shape and color free from damage. Extreme size is no

advantage.

SWEET CORN—Harvest ears well filled out to tip in the tender juicy stage. Do not pull husk from tips. Allow short shank and husks to remain intact. To peek at the kernels is advisable if the husks will smooth back down unnoticeable. Husks should be fresh and green. Ears should be free from worms, disease or any injury. Ears should be taken to the exhibit in full husk. Strip off one-third of the husks and remove silks before judging.

TOMATOES, RIPE—Use only perfect shaped specimens true to type, smooth, free from cracks, sun scald or any blemishes. Should be well colored (no green streaks), ripe but not too ripe. Must be solid. Display with blossom end up. Remove stems.

TOMATOES, GREEN—Entries must be uniform in shape and color and be true to type and variety. They should be free from cracks, insect or mechanical injury, sunscald or blemishes. Show green tomatoes with stems.

TURNIPS—Medium sizes are generally desired as having higher quality. Large sizes may be bitter, corky, and pithy; all samples should look alike. Should be clean and bright in color, but not washed. Remove tops one inch above crown. Should be free of damage caused by freezing, pithiness and secondary roots.

WATERMELON—Select large, well-formed specimens of the same variety; mature, but not overripe. Free from blemishes or injury such as from sunburn, insects or disease. Wipe off, but do not wash. Leave short stem on melon.

DEPARTMENT S
Superintendent.....Amber Ward

1. Last year’s fleeces shown at last year’s Fair are not eligible for this Fair. Each fleece must represent not more than 12 months growth, except in the case of yearling fleeces, 16 months growth will be allowed.
2. QUALIFICATIONS: Any fleece entered in competition shall be discriminated against if: (a) Tied with other than paper twine; (b) Showing any paint or tar brands (soluble branding fluids permissible); (c) Showing excessive dung locks or tags; (d) Discolored by excessive moisture; (e) Cotted; (f) Showing a weak staple or break in fiber; (g) Containing any excess burrs or other vegetable matter.
3. PREPARATION OF FLEECES: Spread out the fleece on a clean table or floor, skin side down, taking care not to pull or open fleece as it is handled. The fleece will look like a pelt or hide. At this stage, before rolling or tying, remove all heavy tags, stained wool, and obvious foreign matter. Rolling the fleece takes four easy steps: (1) Begin at one side and loosely fold 8 to 10 inches of the edge toward the center of the fleece. (2) Do the same on the other side, but fold toward the center two times -until the twice-folded portion lies on top of the first fold. (3) Fold in the head wool. (4) Roll the entire fleece from the breach toward the shoulder and long side wool. Fleece is now ready to be tied. Using

paper fleece twine, wrap it in two directions and tie as you would a package. There should be no loose ends hanging from the fleece. It should be loose enough to make judging easy, yet compact enough to prevent it from falling apart when handled.

4. There shall not be more than two entries per class from one exhibitor.

4-H STATIC

Online entries available at

www.crookcofair.com

DEPARTMENT H – 4-H

General Rules and Regulations will be applicable to all 4-H static and livestock exhibits.

1. 4-H members must be enrolled in the appropriate project before they can exhibit in the class in the 4-H division.
2. Online entries are due by the deadline indicated on the Schedule of Events in the front of this book. It is the responsibility of 4-H youth to verify correct entry of their exhibits with their 4-H educator.
3. Each exhibitor is responsible for the care of his or her exhibit at the fair. The Fair and the UW Extension are not responsible for the loss of or damage to any exhibits or animals.
4. Interview judging for all static 4-H entries is encouraged. Static exhibits must be brought in when you are interview judged on Tuesday of Fair. If you don't want to interview judge, the exhibit must also be brought in at this time.

A 4-H member will be allowed to do interview judging on two (2) exhibits in each project area. An unlimited number of exhibits may be entered in each project area.

5. THE DECISION OF THE JUDGE IS FINAL.
6. 4-H exhibits are placed as judged using the Danish System of recognition (purple, blue, red, white). Additional awards or recognition are available pending donor support.
7. Exhibits placing with a purple ribbon are eligible to compete at Wyoming State Fair. Consult with County Extension personnel for rules governing what exhibits are eligible to go to Wyoming State Fair.
8. SKILLS SUMMARY CARDS: Due to the absence of interview judging at the state fair, the accompaniment of a brief explanation with your project may help the judge when assigning a ribbon placing. Points to consider may include: process, tools used, skills learned, goals achieved, and additional help from others.
9. All Crook County 4-H members who will attend the Wyoming State Fair and compete,

exhibit or participate in any 4-H event while there, must abide by the rules and regulations.

10. Posters, pictures, artwork and photography exhibits should come with a method for hanging them on hooks attached to pegboard. Entries not appropriately prepared for hanging will not be displayed. Display boards or poster boards must be able to stand on their own on a table.
11. Any exhibit that puts the safety of others at risk of injury or harm, as deemed by the county 4-H office, may not be allowed to be publicly displayed and/or judged.
12. Oversized exhibits will be displayed as space permits.
13. All static exhibits will have a permanent identification attached. If the Fair tag can be tied to the project in such a way that it cannot fall off, that will be acceptable. Otherwise, address labels are suggested. If this is not done, the exhibit will not go to state fair.
14. Any violations of rules pertaining to member conduct (disorderly conduct, fighting, insubordination, etc.) will result in action taken by the Fair Board and/or 4-H Program Educator or 4-H Leader. Every 4-H member and 4-H adult volunteer signed an agreement outlining behavior expectations while participating as a 4-H member or volunteer. That code of conduct or agreement is in effect.
15. No items may be removed before Saturday of fair at 4:30 PM or premiums will be forfeited.
16. Rosette to be awarded to Best of Show Champion and Reserve exhibit in each division
17. If a youth is enrolled in both 4-H and FFA, work done must be different in each. Members may carry the same type of project, but the exhibit must be different in each. No youth will be allowed to show the same project in another county's fair in either 4-H or FFA. Participants may only be members of 4-H or FFA in one county.
18. ENTRY INFORMATION: The CLASS CODE must include the DEPARTMENT LETTER, the DIVISION NUMBER and the CLASS NUMBER.

**YOUTH DOG SHOW
DIVISION 15**

Superintendent.....Laurie Schwabauer

Complete details of the 4-H Dog Show may be found in the "4-H Small Animal Packet" available at your County Extension Office.

1. For purposes of classification into Junior (age 8-10), Intermediate (age 11-13) and Senior (14 years of age but not 19) age divisions, all 4-H members' ages are determined as of January 1 of the year of the show.

2. All dogs must be at least 6 months of age by May 1st to compete at the State 4-H Dog Show, and 1 year of age by May 1st for agility classes. 4-H members carrying the dog project may use co-owned dogs (owned by the immediate family). The member must have sole care, training and showing of that dog for the current 4-H year and have a training contract. Leased dogs are allowed at the state level, only with a training contract.

Ownership: The dog lives in the same residence with the 4-H member and is owned by the 4-H youth or immediate family member (grandparents, mother, father, brother, sister). Co-Ownership: Ownership ID Sheets extends beyond the family with two or more names on the papers to prove co-ownership exists. One of the names on the ID Sheet must be the 4-H youth or an immediate family member.

Dog Training Contract: The 4-H member may enter into an agreement to train someone else's dog in situations that may benefit the member, the dog or both. This arrangement is used for families with the inability to own a dog. The training contract should not be used as a substitute for normal dog ownership. The co-ownership agreement, training contract and dog ID sheets all must be completed and submitted to the state 4-H office before May 1 of the current 4-H year.

3. All animal entries of bona fide Wyoming origin must be accompanied by an official health certificate issued at the point of origin by an accredited veterinarian. Certificates for

dog entries must show current immunization as per state veterinary guidelines. No animals will be allowed to exhibit at the Wyoming State Fair without a valid Animal Health Certificate.

4. All dogs must be on leash (excluding competition) and under control at all times. Dogs must not be taken near the stock barns. Once the 4-H dog show is completed, all dogs must be removed from the fairgrounds.

5. Vicious dogs will be dismissed from the ring and must be removed from the premises.

6. Females in season will be allowed in classes. However, they will go through at the end of all classes.

7. Spayed, monorchid and neutered dogs may be shown without judging discrimination.

8. Dogs must be clean and well groomed.

9. The Superintendent reserves the right to ask anyone violating these rules to leave.

10. Each dog may only be entered in one class, one jumper's agility class, and one rally class.

CLASS Section 1 - Dog Showmanship

H-79-17	Dog – Senior
H-79-18	Dog – Intermediate
H-79-19	Dog – Junior
H-79-38	Dog – Pre-beginner

Section 2- Obedience

1. A 4-H member may compete in only one obedience class per dog with a total maximum of two entries (dogs). Their first dog is referred to as the "A" dog. The other is referred to as the "B" dog for class entries.

2. The first-year Beginner Novice class is for members who are in their first year of the dog project, not the first year with a new dog. It is designed as a training class for members who do not feel competent to start in the On Leash class. Members may compete in the first year Beginner Novice class only once.

3. No dog can compete in any one class more than two years in a row. Members advance from On Leash A to Novice A or from On Leash B to Novice B. On Leash B is for the dog or exhibitor with previous experience in the class.

An exhibitor who begins in the A group with a dog stays in the A group for each class. The same is true for the B group.

4. A 4-H exhibitor with a dog shown previously in obedience classes by another 4-H member, or a dog that has a title from another organization or has three qualifying scores from the designated annual county 4-H show, must show the dog by these guidelines:

a. Junior and Intermediate age exhibitors may move back or down one level.

b. Senior age exhibitors must show the dog at the highest level the dog has achieved.

5. A dog receiving a qualifying score of at least 170 points at the designated annual county 4-H show may advance the following year to the next higher class, but must advance after receiving 3 qualifying scores from the designated annual county 4-H show. Once the higher level of obedience is selected for the dog, the member may not drop back/down to the lower level with the same dog.

6. High in trial will be calculated on the basis of the raw qualifying score plus 5 additional points with each increase in level of difficulty.

7. Score Sheets: The Wyoming 4-H dog score sheets were designed for the benefit of 4-H members. They are intended as guides for judges. Judges use their discretion in deciding the seriousness of errors.

8. All dogs must enter/leave the show ring and compete with a leash.

9. Bait and/or dog toys are not allowed in obedience competition.

10. Dogs soiling or urinating in the ring during judging will be disqualified and receive no score.

11. Males and females will be shown in the same class. Females in heat will be shown last in the class and must be kept away from the obedience ring until call time.

Section 3 - Conformation

1. Classes will be subdivided by breeds within a class, if numbers warrant.
2. Exhibitors entering more than one dog in any class may be assisted only by another 4-H member, if the dogs must be shown at the same time.
3. Classes 12-19 will be judged according to AKC standards, but it is not necessary that dogs be registered; they must be purebred - both animal parents of the same breed.
4. Classes 20 and 21 are for cross-bred dogs - parents of different breeds - and will be judged according to the predominant breed characteristics and/or soundness, gait, condition, and grooming.
5. Please see your 4-H educator for the list of breeds that are eligible for each group before entering your dog.

Section 4 - Agility

1. Dogs must be at least one year of age by May 1st.
2. All competitors will start at level one. Advancements are allowed after one qualifying score to the next level. After three qualifying scores in Level One, Two and Three, advancement to the next level is mandatory.

Same day advancement is not allowed from one level to another level.

3. State entrants must achieve qualifying scores at their county level before competing in the State 4-H Dog Show. The level at which a member qualifies at the county level is the level in which they will compete at the State 4-H Dog Show.

4. All dogs will be measured and placed in the proper height class before their agility class starts.

5. A dog receiving a qualifying score of at least 75 points at the county 4-H show may advance the following year to the next higher class, but must advance after receiving 3 qualifying scores from the designated county 4-H show. Once the higher level in agility is selected for the dog, the member may not drop back to the lower level with the same dog.

6. Youth with a dog shown in previous years by another 4-H member, or a dog that has a standard agility title from another organization, or has received 3 qualifying scores from the designated annual county 4-H show, must show the dog under these guidelines:

a. Junior and Intermediate aged 4-H youth may move back/down one level.

b. Senior aged 4-H youth must show the dog at the highest level the dog has achieved.

7. All dogs must enter and leave the ring on a leash.

8. Level 1 dogs will run on a leash. Level 2 dogs must run off leash or with a tab no longer than 6 inches. Collars must be of a flat, buckle variety with nothing hanging from it such as tags.

9. Bait is not allowed in agility competition.

10. Dogs in season will run at the end of each class.

11. A time for all handlers (only) to familiarize themselves with the course they are competing in will be established and announced.

12. Fastest times will be used to break ties on scores at all levels.

KEEP WYOMING WILD & BEAUTIFUL

WELCOME TO THE FAIR!

Healthy livestock, soils, and wildlife depend on healthy native plants. But invasive weeds and pests pose a threat to these vital ecosystems. If left unchecked, they could devastate entire communities.

By using certified weed-free hay for your livestock along with cleaning mud, seed and plant debris from your equipment you can help control and prevent the spread of invasive species.

1. ELIGIBILITY OF FLEECES:

(a) Each fleece entered must have been grown by a 4-H or FFA member and be from sheep recognized as part of current project work and have been shorn in the current or previous year. Last year's fleeces shown at last year's Fair are not eligible for this Fair.

(b) Each fleece must represent not more than 12 months growth, except in the case of yearling fleeces, 16 months growth will be allowed.

2. FLEECE QUALITY: Any fleece entered in competition shall be discriminated against if:

- (a) Tied with other than paper twine
- (b) Showing any paint or tar brands (soluble branding fluids permissible)

- (c) Showing excessive dung locks or tags
- (d) Discolored by excessive moisture
- (e) Cotted
- (f) Showing a weak staple or break in fiber
- (g) Containing any excess burrs or other vegetable matter.

3. PREPARATION OF FLEECES: Spread out the fleece on a clean table or floor, skin side down, taking care not to pull or open fleece as it is handled. The fleece will look like a pelt or hide. At this stage, before rolling or tying, remove all heavy tags, stained wool, and obvious foreign matter. Rolling the fleece takes four easy steps: **1.)** Begin at one side and loosely fold 8 to 10 inches of the edge toward the center of the fleece. **2.)** Do the same on the other side, but fold toward the center two times -until the twice folded portion lies on top of the first fold. **3.)** Fold in the head wool. **4.)** Roll the entire fleece from the breach toward the shoulder and long side wool. Fleece is now ready to be tied. Using paper fleece twine, wrap it in two directions and tie as you would a package. There should be no loose ends hanging from the fleece. It should be loose enough to make judging easy, yet compact enough to prevent it from falling apart when handled.

4. There shall not be more than two entries per class from one exhibitor.

5. The judging area is closed to everyone except Judge, Superintendent and Assistant to the Superintendent.

YOUTH LIVESTOCK SALE LIMITS

Each project member is allowed to sell only three animals. An exhibitor may sell **TWO** market hogs to make a total of three animals. No other species will be allowed to sell more than **ONE**.

Please note: a meat pen of 3 rabbits or poultry equals one animal. The following table shall be used as a guide.

BEEF	HOG	LAMB	GOAT	RABBITS	POULTRY	TOTAL
1	1	1				3
1	2					3
1	1		1			3
1		1	1			3
	1	1	1			3
	2	1				3
1	1				1	3
1	1		1			3
1		1		1		3

Example: You may sell 1 pen of poultry, 1 market goat and 1 market sheep to total 3.

The Overall Champion and Overall Reserve Champion of Beef, Hogs, Lambs and Goats must sell at the Youth Livestock Sale unless owned by one exhibitor. Any other animal that makes weight and the above limits are not exceeded may sell at the sale.

A buyer must make arrangements BEFORE the sale if there are extenuating circumstances that require the seller to take the sale animals home after the Crook County Fair.

A seller can only sell in the youth sale until the summer after their high school graduation. Sheep, pigs and goats will be sold by the head. Beef will be sold by the pound. Meat poultry and meat rabbits will sell by the pen. No sale animal will leave the premises until the conclusion of the sale and all paperwork is completed.

NO PRIVATE TREATY SALES. This includes, but is not limited to, surplus market animals not eligible to be sold in the Youth Livestock Sale, or animals that did not make weight. Private treaty sales also include breeding animals and small animals and poultry. This rule is not to punish any exhibitor, but rather to uphold the integrity of the Youth Livestock Sale and allow each exhibitor a fair opportunity. Breeding livestock, small animals and poultry sales can take place after the Crook County Fair.

Buy back option: If an exhibitor's animal goes into the Buy Back Program, the exhibitor will get the first option to buy his/her animal back at the price specified by the sale committee prior to the sale. The buy back amount will be deducted from the sale proceeds of that animal. The exhibitor must declare his/her decision to buy back the animal prior to sale day. If the exhibitor chooses not to buy the animal back, it will proceed through the buy back program as specified by the sale committee.

NOTE: 2% OF EACH ANIMAL SOLD WILL BE SUBTRACTED FROM THE TOTAL OF THE SALE. The 2% is used to help with advertising so that each youth may get a good price per pound and per head.

CROOK COUNTY RODEO ROYALTY

Teagan Timberman – Queen Tana Timberman – Princess
Riata Burch – Jr. Princess
Gabby Dewey – Pee Wee Princess

The Crook County Rodeo Royalty is a yearly event. The actual contest will be held in July with the crowning at the Crook County Fair. The current royalty serves as the official hosts of the Crook County Fair. They are available to present awards, be ticket takers, and lead the parade.

The girls begin their year in August. Their first events are the Wyoming State Fair, and then in the winter it is Buckin' Ball, Black Hills Stock Show, Winter Western, etc. The girls serve in various capacities throughout the spring and summer by attending parades, banquets, rodeos, western events as well as down home fun activities. They serve as role models for the younger generation.

The different positions of royalty are as follows: Queen, Princess, Junior Princess, and Pee Wee princess.

All buckles, as well as awards at the crowning presentation, are gifted as a means of support for the organization. We also have a saddle for the Queen, plus a scholarship program is available if the criteria are met.
